

Inventory Better with the HT730 Rugged Handheld Terminal

Introducing a warehousing terminal made for the digital age. The HT730 rugged handheld terminal features a robust CPU, the latest Android operating system along with Google Mobile Services (GMS) certification, a full-shift, 10-hour battery, and a built-tough form factor.

CYPRESS, CALIFORNIA - FEBRUARY 23, 2021

Get out of the stone age of warehousing data collection and say goodbye to inefficiency and errors. The Unitech HT730 is the newest handheld terminal to hit the market and it's specially designed for order picking, inventory management, and asset tracking. This device allows one-handed operation using touchscreen or its 38-key easy press buttons.

A 38-key keypad with backlight allows for easy operation even in dark environments. As well, the HT730 reads all 1D and 2D barcodes with its powerful scan engine from distances of up to 20-feet when paired with optional gun grip. It offers a 30-degree tilt scan capability for comfortable and versatile data collection. The device supports HF RFID tags with a data capture range between 6-8 meters.

"We've designed a handheld terminal with the user in mind," says Brian Silence, Director of Business Development, "the HT730 is built for efficiency and comfort from the inside out. It features a super fast processor and Android 10 OS. The device itself can be operated easily for left- and right-handed users and can also be used with one hand."

"Unitech has designed a handheld terminal with the user in mind."

Android 10 OS + GMS + Octa-Core

The HT730 gives you the ability to tackle any task. In addition to its superior scanning capability and HF RFID, it comes equipped with Android 10 and Google Mobile Services which means the HT730 is backed by the most reliable web and application service. With GMS you can download apps to simplify tasks and boost accuracy and efficiency. An Octa-Core processor with artificial intelligence by Qualcomm ensures your device runs at top speed while optimizing battery usage.

All-Day Hot Swap Battery

The HT730 includes a robust 6700mAh battery that can last 10-12 hours on a single charge. Even if the device's battery is drained, the HT730's true hot-swap feature permits battery changes without shutting the device down. Replacing the battery won't cause data loss if changed within a minute. For task-intensive work, the HT730 is a powerfully durable device that lasts a full shift and beyond.

Rugged, One-Handed Operation

Workers often need their hands free to perform warehouse and company functions. With this in mind, Unitech engineered a device that facilitates operation using just one hand freeing up the other for reaching an item on a shelf or while holding books and clipboards. Dual side scan buttons and an ergonomic form factor reduces strain on hands and a 6-foot drop spec with IP67 rating makes this a rugged choice.

Connectivity Options

The HT730 is designed for an array of tasks and offers a multitude of ways to connect in-house or on-site. The device features Dual SIM slots, Bluetooth 5.1 technology, IEEE 802.11a/b/g/n/ac/d/h/i/k/r/v (MIMO 2x2), WLAN Standard for communication and task completion that's immediate and reliable.

Wide Scan Range with Optional Gun Grip

The HT730 is designed with the warehouse worker in mind. With an easy press 38-keypad and capacitive touch screen, users can choose an interface which works best for them. Pair with a long range gun grip to cover a 65-foot read range. The HT730 proves itself a useful tool in order picking, delivery confirmation, inventory checks, and price information applications.

The HT730 At A Glance

The rugged HT730 is not just for warehousing. It's long list of features means its adaptable to environments in stock rooms in retail, asset tracking, transportation, logistics, and order picking. See all the HT730 has to offer:

- **Android 10 OS + GMS:** Add convenience to your tasks with an Android 10 operating system and GMS. With this partnership, you'll have access to Google's suite of tools designed to increase efficiency and productivity.
- **1D/2D Scanning with 30-degree Tilt, HF Ready:** The HT730 is a powerhouse in AIDC devices with a 1D/2D barcode read capability and 30-degree tilt scan design. This device also facilitates high frequency and ultra-high frequency data collection.
- **True Hot Swap Battery:** A 3.7V 6700mAh battery allows all-day usage of up to 10 hours. However, in the event of an emergency, the battery can be replaced with file retention if changed within one minute.
- **6-Foot Drop Rated:** Never worry about climbing to the highest shelf to read a barcode. The HT730 is capable of receiving scans from up to 65-feet away.
- **Multiple Ways to Connect:** For all the ways businesses communicate, the HT730 offers multiple connection points. Use IEEE 802.11a/b/g/n, 802.11ax-ready, and 802.11ac Wave 2 with 2X2 MU-MIMO WLAN Standard.
- **IP67 Rating / 6-foot Drop Spec:** The HT730 handheld blocks out dust, dirt, and water while enduring 6-foot drops to concrete for a truly rugged device.
- **NFC & Fingerprint:** Transmit data securely from another device with NFC and protect sensitive data within with fingerprint access technology.

Mobolink Device Management Software

The HT730 runs even smoother when pairing it with MoboLink, Unitech's proprietary mobile device management software. Lock multiple Unitech devices, monitor battery levels, device health, and add or remove apps from a central host computer. Contact your Unitech sales manager or distributor for further details.

Unitech HT730 Product Specifications

The HT730 is best suited for warehousing, logistics, transportation and asset/inventory management.

CPU	2.3GHz Qualcomm 720G (SM7125) Octa-Core
Memory	4 GB RAM 64 GB Flash
OS	Android 10 + GMS
Display	4" TFT-LCD WVGA Capacitive Touch Screen
Dimensions	7.6" x 2.8" x 1.3" (195 mm x 72 mm x 34 mm)
Weight	13.9 oz (395g) with battery
Camera	13 megapixels Autofocus with Flash
Main battery	3.7V 6700mAh Hot Swap Battery
USB	USB 3.1 w/ Pogo Pin
WLAN	802.11a/b/g/n, 802.11ax-ready, 802.11ac Wave 2 (Dual Antenna, 2X2 MU-MIMO support)
Bluetooth	Bluetooth® 5.1 Supported
WWAN	LTE Advanced Support Up to CAT4

U.S. Pricing & Availability

The HT730 is available now and starts at \$1,304 MSRP. Please contact your sales manager for full details.

About Unitech

With over 30 years of automatic data capture experience, Unitech America provides a diverse selection of enterprise devices to suit every need and budget. We offer unmatched US-based service and support along with comprehensive warranties.
