SL220

Enterprise Sled

Introducing the ultimate inventory tracking solution - a device that transforms the Apple® iPhone® into enterprise-ready devices for your mobile workers with Otterbox (uniVERSE Series Case)! By adding the SL220 enterprise sled, they will gain instant access to critical business information plus automatic data capture and transaction processing. The SL220 sled transforms the popular smartphone into an enterprise-ready solution that speeds business agility and lowers your total cost of ownership. The SL220 sled is ideal for mobile frontline workers that require real-time connectivity to business-critical applications and superior barcode scanning performance to improve productivity and better serve customers on the floor, on the road or in the field.
