EBrowser

Software

How to get EBrowser's SDK?

EBrowser's SDK is built into the EBrowser App (APK).
When you run the EBrowser app, you can go to the Settings page, and then scroll to the bottom of the page, there is a EBrowserSDK demo area, it shows these demos:
-Demo how to integrate with UnitechSDK
-Demo how to retrieve scanner data and switch on off Scan2key
-Demo how to retrieve camera image and location data
-Demo of how to set the vibration and brightness system settings

Below is EBrowser's SDK download link:
